Organizer

Faculty of Technology and Applied Sciences
@ Al Quds Open University

Introduction

The first QOU International Conference on Information and Communication Technology is the premier event that brings together academics, industry professionals, and engineers to present their latest research findings, and exchange information and ideas on information and communication technology. The conference will feature a comprehensive technical program offering various technical sessions with papers showcasing the latest technologies and applications.

All submissions will be subject to reviews, and accepted papers must be presented (physically or virtually) for open access publication on the conference website and in the conference proceedings. Authors may submit extended version of their paper to the QOU PJTAS.
